COMMENTS

Molecular diagnosis and therapy of hepatolenticular degeneration
.....

ORIGINAL ARTICLES

Analysis of genetic screening of 13 725 neonatal hereditary deafness in Jiangmen district Guangdong province
.....

Clinical significance and screening of deafness gene mutation sites in 1 610 pregnant women from Xiangtan area
.....

Effect of different timing highly active antiretroviral therapy combined with anti-HCV therapy on the liver function in patients with HIV/HCV co-infection
.....

Detection and clinical significance of serum PPAR γ gene methylation in patient with breast cancer
.....

Expression and clinical significance of BRAF^{T1799A} in peripheral blood of patients with papillary thyroid carcinoma
.....

Effect of 5-Aza-2'-deoxycytidine on methylation of PPAR- γ gene in MDA-MB-231 cell
.....

Application of PCR fluorescence probe in detection of Y chromosome microdeletion
.....

Study on the relationship between high-risk humanpapilloma virus with ureaplasma urealyticum infection and cervical intraepithelial neoplasia

.....

Effect of long-term incremental exercise on thymus epithelial and thymus hormone expression in rats

.....

Analysis of the related factors of peripheral neuropathy in type 2 diabetes

.....

The establishment and clinical value of the median of screening serum-markers for second-trimester pregnant women in Zhongshan

.....

REVIEWS

The application of molecular diagnostic technique in the diagnosis and treatment of atrial fibrillation
