A diagram showing a horizontal line with several points marked by short vertical segments. The points are labeled with Greek letters: μ , α , β , γ , δ , ϵ , ζ , η , θ , ι , κ , λ , μ , ν , ξ , $\omicron$, π , ρ , σ , τ , υ , ϕ , χ , ψ , ω . The labels are placed below the line, and the vertical segments are placed above the line.

A diagram of a 2D hexagonal lattice. The lattice points are represented by small circles. Two points are specifically labeled with the letter 'K'. One 'K' is located at a vertex of the hexagonal grid, and the other 'K' is located at the center of a hexagon. The lattice is composed of interconnected hexagons, forming a honeycomb-like structure.
